

NEX
COATING LTD.

NEX COATING LTD.

บริษัท เน็กซ์ โคล์ทติ้ง จำกัด

Company Overview

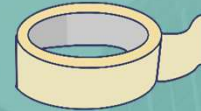

Founded

2013

Location

Located in ESIE
Rayong, Thailand

Product

- Adhesive Coating
- Adhesive Tapes

Facilities

- Sheet material
- Tape and roll material
- Rewinder, Slitter

Corporate Structure

Local production of adhesive compound

Deep knowledge about adhesive compound

Short lead time for delivery

One stop service with our own procurement of material, adhesive compound & die-cut service

Customized service realized by a select few

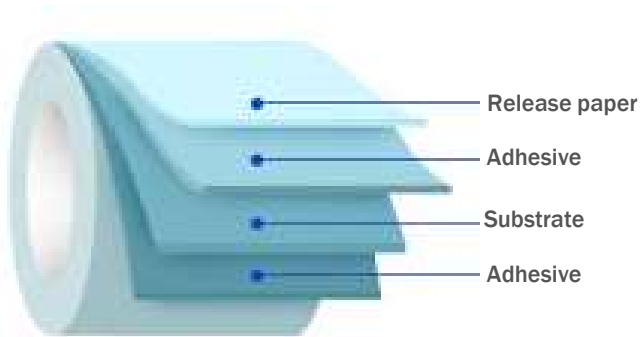

" We were established in January 2013 with the joint Japanese capital investment between Ebisu Kasei & Nagoya Packing expecting to contribute to the needs in various industries with our strong points "

Tapes & Roll material

Various of adhesive and substrate with low VOC
Tape thickness 0.06 - 0.13 mm Valid width 10 - 1,200 mm

Business Content & Product

Sheet material

Various of adhered
(material for adhesive coating)

Adhesive thickness
0.03 - 0.07 mm
Valid width 1,520 mm

Process for Tapes

Adhesive Mixing

Laminating

Rewinding

Inspection

Process design

Coating

Curing

Slitting

Facility & Capability

“ Various industrial adhesive tapes manufacturing with friendly-environmental ”

FACILITY	MAX COATING WIDTH (mm.)	LENGTH (mm.)	ADHESIVE TYPE	ADHESIVE THICKNESS	REMARK
NEX 1 Flat sheet adhesive coating machine	1,220	500 ~ 2,000	ACRYLIC EMULSION ACRYLIC SOLVENT	50μ	Release paper : Kraft & others
NEX 2 Double sided adhesive coating machine	1,520		ACRYLIC EMULSION ACRYLIC SOLVENT	50μ	Release paper : Kraft , high quality, others
REWINDING MACHINE	1,550	5 m			Paper core 3 inch (Ø76.2mm)
SLITTER MACHINE Double sided tape auto cutter					Cutter size 10 m ~1mm handling
INSPECTION ROOM WITH DEVICE					
ADHESIVE MIXING ROOM WITH MIXER					5 Mixers
WAREHOUSE					Adjacency 1,000 m ²

Sample of Application Tapes & Double Sided Tapes

Sample of Application Tapes & Double Sided Tapes

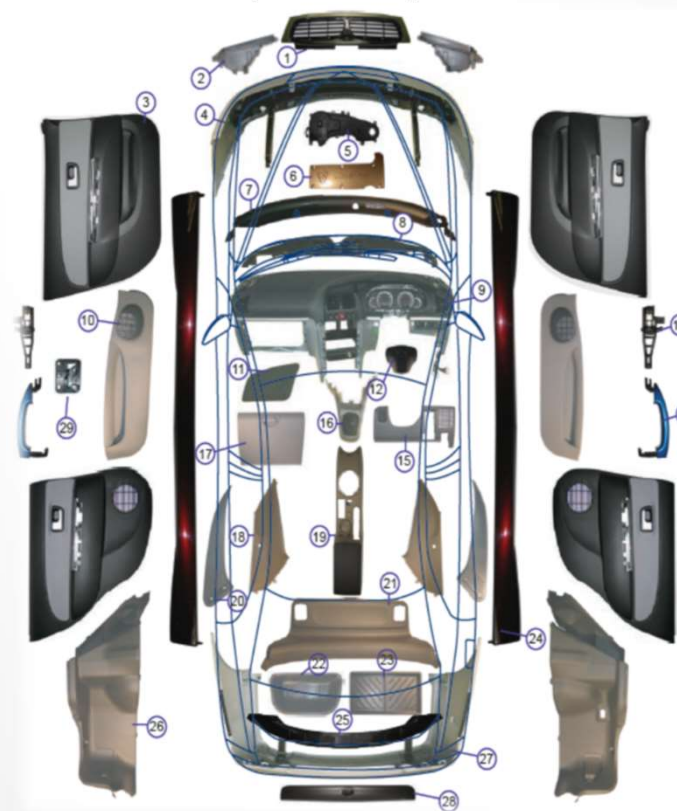

Automotive (Exterior & overall)

1. Wire harnessing
2. HVAC
3. Fixing body side, trunk moldings
4. Badge & emblem mounting
5. Fixing trim, spoilers mounting & pillar
6. Fixing roof panels & framework
7. Shark fin antenna,
8. Park distance sensors
9. Lamp sealed, fog lamp, front-rear lamp, brake light
10. Mirror mounting, rear view, glass
11. Fixing light unit components
12. Seating and cushion
13. Sound proofing vibration suppression

Automotive (Interior)

Plastics parts

1. Radiator Grille
2. Housing Headlamp
3. Door Trim
4. Front bumper Assembly
5. Timing Belt Cover
6. Cam Cover
7. Garnish Front Deck
8. Nozzle Assy Defroster
9. Instrument Panel Assy
10. Front Door Trim Lower
11. Cover Passenger Airbag
12. Cover Airbag D/S
13. Door Bracket
14. Door Handle
15. Panel Lower D/S
16. Panel Cluster Lower
17. Glove Box
18. Pillar Trim
19. Floor Console
20. Rear Pillar Garnish
21. Trim Tail Gate
22. Tool Kit Tray
23. Boot Tray
24. Side Skirt
25. Bumper Impact Beam
26. Trim Rear Side
27. Rear Bumper Assembly
28. Garnish Back Door
29. Inner Handle

WHY NEX ? Benefit of NEX Coating

Location advantage

- Asian Hub
- Local manufacturing with export privileged
- Support customer's export activity
- Advantage location closed to sea/air port and IE

Localization

- Reduce inland transport cost
- Stabilize the supply for customer
- Support logistic activity
- Own warehouse with management
- Support customer just in-time delivery

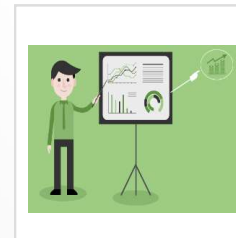

Readiness

- With converter partner "K2 Allied component ltd." (support die-cut, half cut expert in automotive & electronic)
- Support technology from Japan HQ

Developer

- Customize product configurations by customer requirement
- Flexibility small to huge volume

Optimized your working process

- Speedily & easier your working process
- High productivity minimal process cost
- Cleanliness without pollution, no rust, no hole, no dust & noise

Friendly - environmental

- Environmental care with low VOC adhesive
